STIRLING HOSPITAL *Winter 2024 Edition*

Stirling Hospital to stay at its current location

We were excited to recently share the news that Stirling Hospital will continue to serve the community from its historic Adelaide Hills location of more than 90 years. Our hope is that the local community, including patients, Visiting Medical Officers and General Practitioners, can rally behind the Hospital so it can grow and prosper in the years ahead.

Providing your support could be as simple as considering Stirling Hospital for referrals and sharing positive experiences with colleagues, friends and family.

We continue to work hard to expand the range of skilled specialists who utilise Stirling Hospital and adapt to the changing medical and health needs of the local community. Whether it is for a general surgery or a specialised procedure, every referral contributes to the Hospital's ongoing sustainability, enhances the well-being of the community and reinforces our reputation as a trusted private healthcare provider in South Australia.

It was also rewarding to see the Hospital recently achieve accreditation by the Australian Commission on Safety and Quality in Healthcare. That accolade acknowledges our commitment to upholding the highest standards in healthcare and we hope the community can take pride in knowing the Hospital and our workforce are dedicated to the well-being of our patients.

Stirling Hospital Services Update

Prostate Biopsy

Stirling Hospital is excited to announce the commencement of a prostate biopsy service. For patients with an elevated PSA, who require a prostate biopsy, this procedure is now available at Stirling Hospital. Our two Visiting Urologists Dr Richard Wells and Dr Simon Harley are both performing this procedure.

For more information and to book an appointment please contact South Terrace Urology on 8215 9444.

New Surgeons at Stirling Hospital

We are pleased to welcome these new surgeons to Stirling Hospital

Dr Sam Benveniste

Orthopaedic Surgeon

Dr Sam Benveniste is an Orthopaedic Surgeon who specialises in lower limb surgery, particularly hip and knee replacement (primary and revision) utilising robotic assisted techniques, sports knee injuries and orthopaedic trauma and fracture care.

Dr Benveniste will commence consulting and operating at Stirling Hospital in July 2024.

He consults and operates at the Calvary Adelaide Hospital and is a staff specialist at the Royal Adelaide Hospital.

For appointments contact: Wakefield Orthopaedic Clinic on 8236 4144.

Dr Gabrielle Smart

Paediatric Dentist

Dr Gabrielle Smart, a Paediatric Dentist, will start to regularly operate at Stirling Hospital from July 2024. Dr Smart aims to provide the highest quality, individualized care to paediatric and special needs patients within our community.

Dr Smart completed a Bachelor of Dental Surgery with a concurrent Bachelor of Applied Science in Dentistry (Honours) at the University of Adelaide in 2010, and has also completed a Doctorate in Clinical Dentistry (Paediatric Dentistry) in 2015.

For appointments contact Hills and Country Paediatric Dentistry on 8151 3939.

Dr Corinne Maiolo

Dermatologist

Dr Corinne Maiolo, a qualified Dermatologist, will commence consulting and procedural work at Stirling Hospital in July 2024.

She specialises in the medical and surgical treatment of skin, hair and nail conditions in children and adults. She also has an interest in cosmetic dermatology. Dr Maiolo is passionate about patient education and supporting her patients through their treatments. She founded myPRODERM in 2019 and the clinic now services the Adelaide CBD, Hills and Riverland.

For appointments contact myPRODERM on 7087 0814.

If you would like one of the above surgeons to visit your practice please contact Katie Wood on 8339 0200

STIRLING HOSPITAL *Winter 2024 Edition*

Stirling Hospital Services Update

Respiratory and Sleep Lab Service

Stirling Hospital is pleased to announce the launch of a new and much-needed service for the community in the Adelaide Hills: a comprehensive respiratory service.

Adelaide Sleep and Respiratory Centre is proud to be providing this new service from the Hospital from July 2024, which will be led by Dr Khin Hnin and Dr Jared Anderson. Some of the tests available will be full lung function tests and spirometry which are both vital to assist with respiratory diagnosis.

Lung function testing is essential for diagnosing and managing various respiratory conditions such as asthma, chronic obstructive pulmonary disease (COPD), and other lung-related illnesses. Spirometry, a fundamental component of this service, measures the volume and speed of air that can be inhaled and exhaled, offering critical insights into lung health. The full lung function test goes a step further, evaluating additional parameters to assist with the diagnosis and management of various respiratory pathology.

The introduction of these respiratory tests at Stirling Hospital represents a significant advancement in healthcare for our local community. Patients no longer need to travel out of the Adelaide Hills to access these essential diagnostics, ensuring more timely and convenient access to care. We are dedicated to enhancing the health and well-being of our community and introduction of this new service demonstrates our ongoing commitment to providing comprehensive, high-quality medical services close to home.

Appointments to be seen at Stirling Hospital can be booked by contacting the Adelaide Sleep and Respiratory Centre at Norwood Specialist Clinic on (08) 71600237

Stirling Hospital On-Site Services Update

Clinpath Pathology

Stirling Hospital would like to welcome our new pathology service provider, Clinpath Pathology, a highly respected, well established private pathology practice.

They provide pathology services to general practitioners, specialists, private hospitals, and aged care facilities in South Australia. This is supported by over 30 of their pathologists that are based in Adelaide. Since their formation, they have been medically managed by pathologists supported by stable, committed management teams focused on providing the best patient care.

At Clinpath, they are committed to providing a personalised, responsive and professional service to all of their clients. Pathology is probably the most hidden medical specialty but is vital for diagnosis, monitoring of disease, guiding treatment and preventative health.

Stirling Hospital is so pleased to be in partnership with the Clinpath Pathology team and look forward to working together. The collection centre on site at Stirling Hospital will be open Monday to Friday from 0800 to 1600.
