Congratulations to Ainslie H. and Gayl S. for achieving 10 years of service, Julene F. and Cath T. for achieving 15 years of service, Katie W. for achieving 20 years of service, Sylvia W. for achieving 25 years of service, and to Julie S. for achieving 35 years of service. ### Hand Hygiene at Stirling Hospital

Hand hygiene is any action that cleans hands—either washing with soap and water or using an alcohol-based hand rub. When done properly, it reduces the spread of microorganisms.

Stirling Hospital follows the 'Five Moments for Hand Hygiene,' recognised as the key times to clean hands. To support this, we take part in the national Hand Hygiene Program and complete three observational audits each year. All clinical areas are included, with at least 100 hand hygiene moments audited per area in each cycle. We are pleased to present our results for the third audit period in 2025.

### A Christmas and End of Year Message from Stirling Hospital

As we come to the end of another busy and rewarding year, Stirling Hospital extends warm Christmas greetings to all patients, specialists and medical officers, families, staff, volunteers, and our wider community. We are grateful for your ongoing support, which enables us to continue providing high-quality care in the Adelaide Hills.

Thank you to our dedicated team for your commitment, compassion, and resilience throughout 2025. Your efforts make a meaningful difference every day.

Wishing everyone a safe, joyful Christmas and a healthy, fulfilling year ahead.
